PRICE PFISTER

Job Pack Packaging

ON-SITE INSTALLATION MADE EASY

Price Pfister Job Packs are designed and packaged with the new work contractor's needs in mind. Our faucets are packaged in quantities suited to multiple installations on the job site.

- All major product categories are available: kitchen, lavatory, tub & shower, and roman tub.
- Our packaging is secure. It comes in a master carton with separators and unit dividers that meet the needs of you, the installer, in new work situations.
- Best of all, you get great pricing along with the superior benefits of Price Pfister ceramic disc technology.
- Price Pfister extends the Pforever Warranty® to all Job Pack products.

CERAMIC DISC VALVING

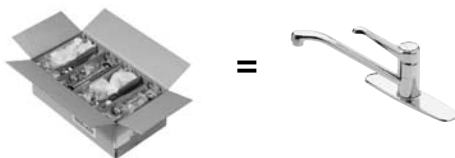

Ceramic Disc Valves last eight times longer than the industry standard. They are the ultimate in durability and reliability. Tests show that our Ceramic Disc Valves operate flawlessly for more than 4 million cycles. That is the equivalent of 80 years of normal use, or 8 times the industry standard. Ceramic is the hardest material on earth next to diamonds, withstanding even the harshest of water conditions.

Why is this so important to you? Because the biggest reason for call-backs is leaks. Our ceramic disc valving is guaranteed to be leak-free for life. Homeowners love it because the self-lubricating ceramic discs provide easier operation.

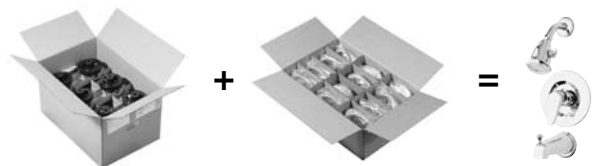

EASY ORDERING

Job Pack ordering gives you the ease and convenience for multiple installations. Job Pack products include kitchen, roman tub, lavatory, and tub & shower faucets. To order, contact your wholesale customer service representative at (800) 422-4278 or fax your order to (800) 847-4288. Job Pack product is available in case quantities only.

Some lavatory faucets require handle inserts.
 Check handle insert section.

Tub & shower and roman tub faucets require at least two separate boxes to complete installations.

J34 - J35 Series

Single Control/Two-Handle Kitchen Faucets

The Price Pfister water saving aerator meets ANSI/ASME A112.18.1 and CSA B125 flow rate requirements of 2.2 gpm, 8.33 L/Min., Max at 60 psi.

JX8 - JX9 Series

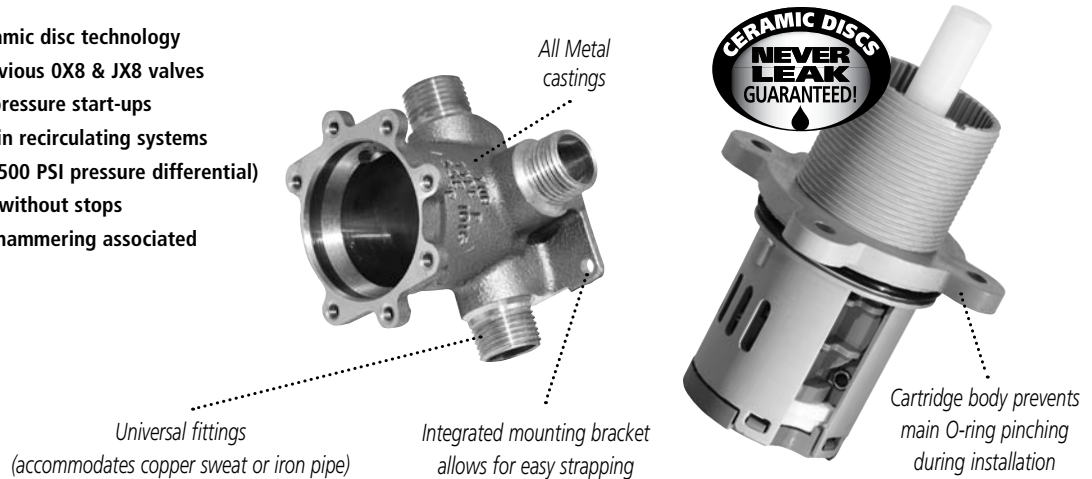

Single Control In-Wall Valves

Price Pfister shower heads meet ANSI Standard A112.18.1: 2.5 gpm, 9.46 L/Min max flow.

Product	Description	Finish	Body/Complete	Catalog No.	Case Qty.	List Price
JX8 Single Control Ceramic Disc Pressure Balancing Valve Bodies						
	Pressure Balance Valve, Universal Fittings*, Less Stops	Unfinished	Valve	JX8-310A	12	\$69.93
	Pressure Balance Valve, Universal Fittings*, with Stops	Unfinished	Valve	JX8-340A	12	\$83.93
	Pressure Balance Valve, Female IP x Female IP, Less Stops	Unfinished	Valve	JX8-110A	12	\$69.93
	Pressure Balance Valve, Female IP x Female IP, with Stops	Unfinished	Valve	JX8-140A	12	\$83.93
	*Universal fittings (both 1/2" copper sweat and iron pipe thread)					
	OX8 Replacement Cartridge, One Piece Cartridge for Easy Retrofit or Repair	Unfinished	Part	974-042	1	\$52.56

JX8 Pressure Balance Valving. Pressure Balance valves will automatically adjust to compensate for changes in temperature due to water pressure fluctuations, such as when a toilet is flushed. When the balance between cold and hot water flowing out of the shower head changes, this valve adjusts to maintain the desired temperature at + or - 3°. It prevents scalding due to pressure fluctuations.

- Now includes ceramic disc technology
- Retrofits with previous OX8 & JX8 valves
- Withstands high-pressure start-ups
- Designed for use in recirculating systems
- Reaches 800 PSI (500 PSI pressure differential)
- Available with or without stops
- Eliminates water hammering associated with the valve

JX9 Single Control Mixing Valve Bodies

	Mixing Valve, CC x CC, Less Stops	Unfinished	Valve	JX9-010A	12	\$63.05
