VOLUME CONTROL VALVE

THERMOSTATIC VALVE

¾" THERMOSTATIC SHOWER SYSTEM

SHOWER SOLUTIONS

ENGINEERED PERFORMANCE

- ¾" Thermostatic valve supports over 12gpm @ 80psi delivering an exceptional showering experience

CUSTOM CONFIGURATIONS

Customize the shower of your dreams with these luxurious options:

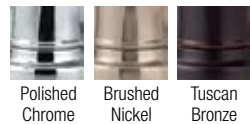

- Invigorating Body Jets (1.6gpm each)
- Multi-Function Handshower (2.5 gpm)
- Adjustable Slide Bar (set height & angle)
- Luxury 8" Raincan Showerhead (2.5 gpm)

VOLUME CONTROL VALVES

- Delivers on/off and flow control for showerhead, handshower, and multiple body sprays

THERMOSTATIC VALVE TECHNOLOGY

- Select the exact temperature for the perfect shower, every shower
- Thermostatic technology delivers precise temperature regulation to +/- 1°F

½" TX8 THERMOSTATIC SHOWER SYSTEM

SHOWER SOLUTIONS

EXCEPTIONAL PERFORMANCE

- New ½" TX8 Thermostatic valve delivers best-in-class performance 7.0gpm @ 80psi
- Thermostatic temperature control system delivers precise temperature control to +/- 1°F

ADVANCED SHOWER TECHNOLOGY

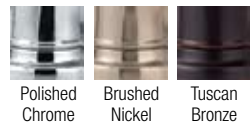

- Body sprays, featuring integrated ceramic disc valving, offers volume control and on/off functionality (eliminating the need for a separate diverter valve)

INSTALLATION SAVINGS

- Diverter-less technology means a separate diverter is no longer required
- Eliminating the diverter valve, trim, & labor costs translates to over \$475 in savings per installation

RETROFIT

- New Thermostatic cartridge fits the existing OX8 valve body to easily upgrade from pressure balance showers to thermostatic showers

Polished Chrome Brushed Nickel Tuscan Bronze

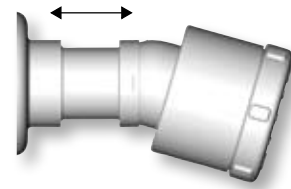

BODY SPRAY
015-BDOC

BODY SPRAY INNOVATION

EASE OF INSTALLATION

- 1" Adjustability to guarantee a perfect installation

NO DIVERTER... NO PROBLEM

- Integrated ceramic disc valves eliminate the need for a separate diverter valve. Ceramic discs guarantee a lifetime of leak-free operation.

INCREASED FUNCTIONALITY

- Exceptional 16° rotation for superior coverage

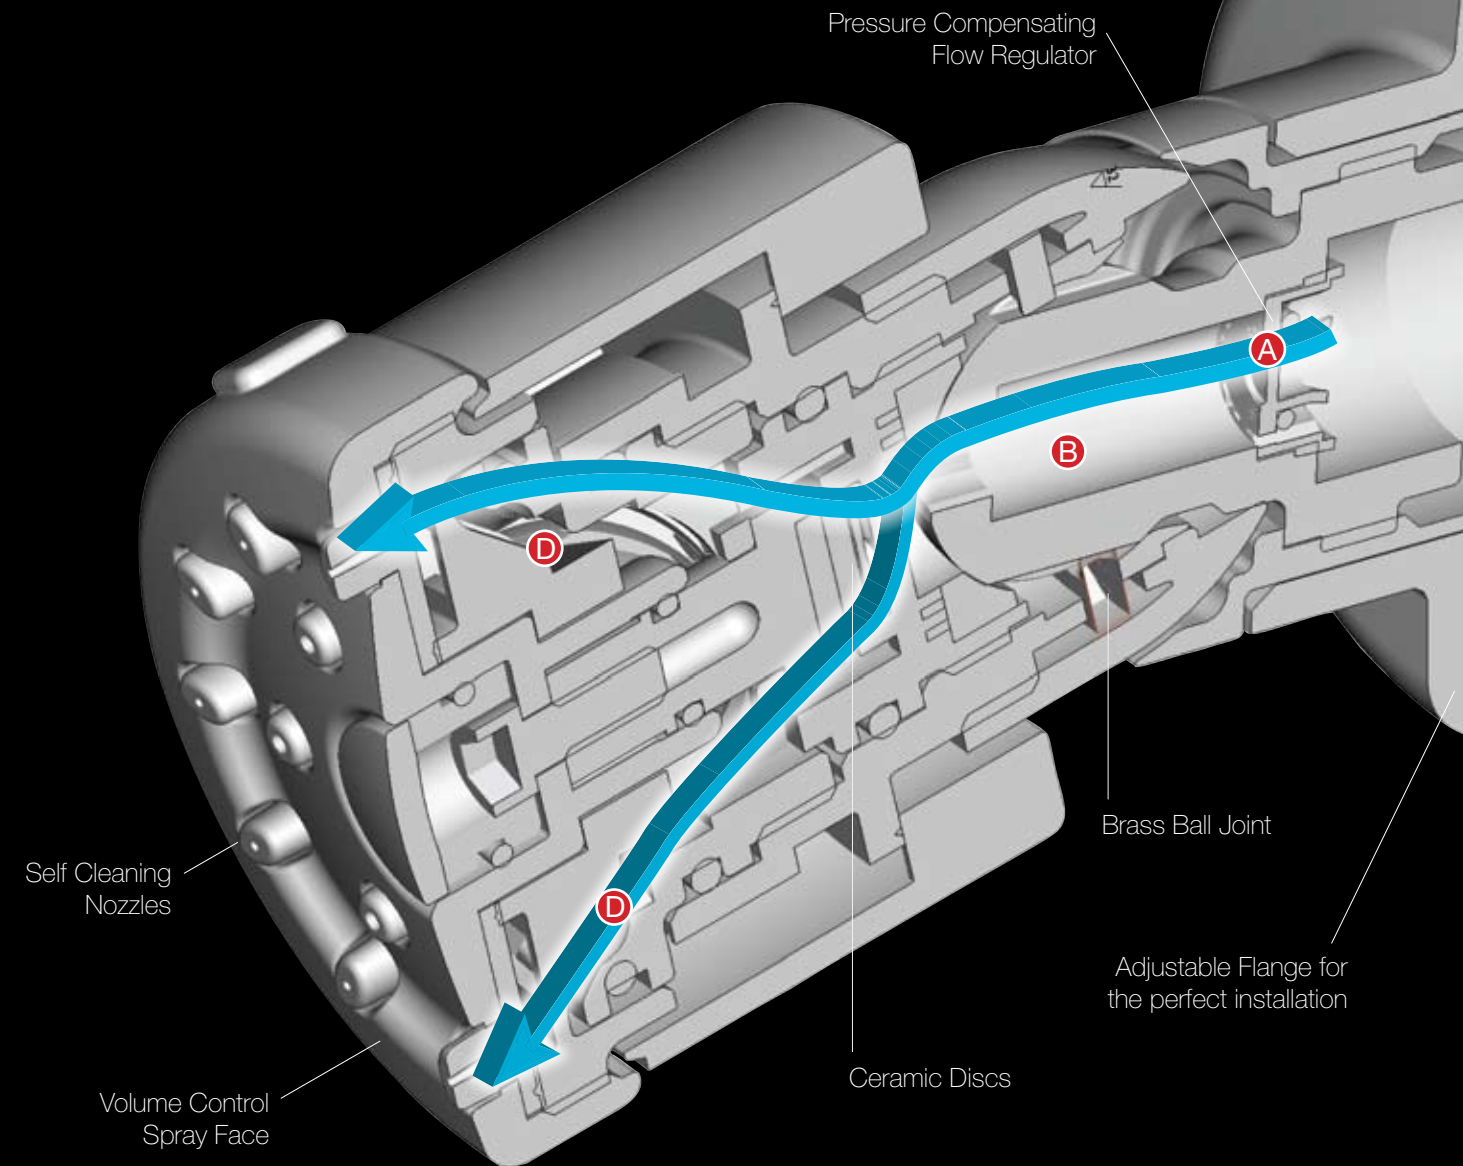

VOLUME CONTROL

- Rotate the sprayhead to activate and control volume

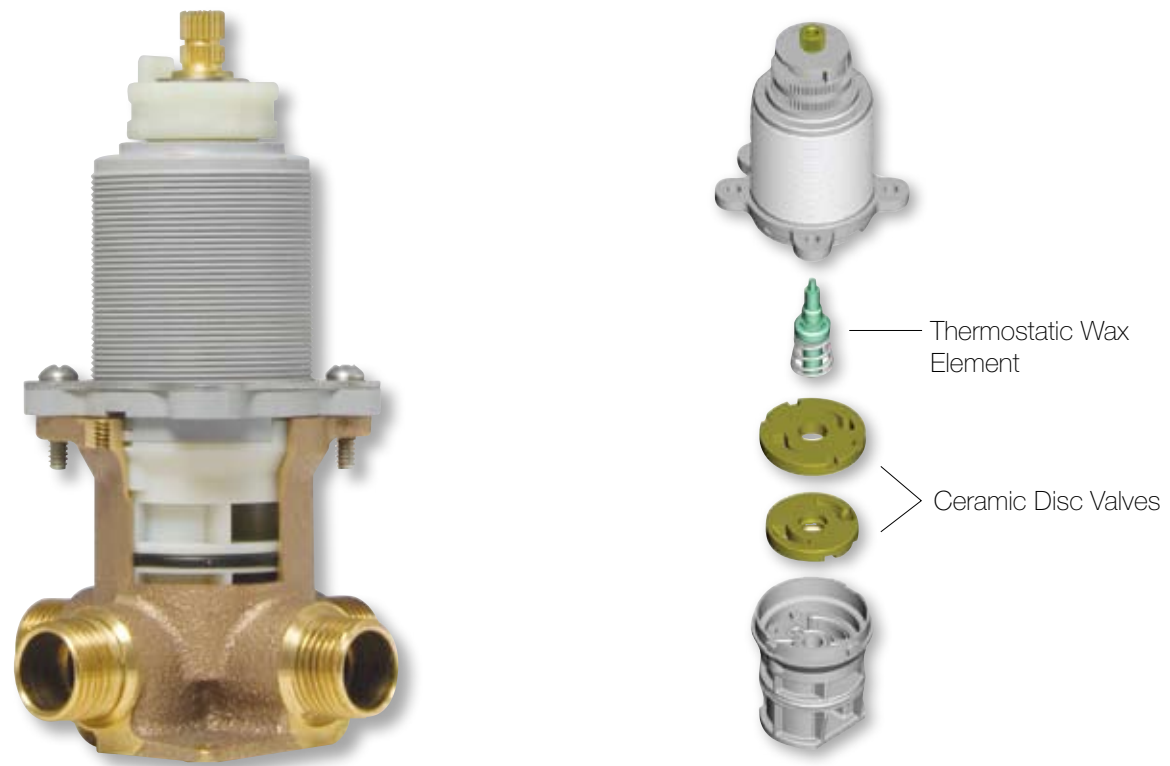

ELIMINATES A SEPARATE DIVERTER

- A - Flow Regulator
- B - Passes through brass Ball Joint
- C - To Ceramic Disc
- D - Out through self cleaning Spray Nozzles

THERMOSTATIC VALVE TECHNOLOGY

PRECISION ENGINEERING

With the finely-machined thermostatic wax element combined with the reliability of ceramic disc valves, Price Pfister has designed the ultimate Thermostatic Shower Valve.

½" TX8 THERMOSTATIC SHOWER SYSTEM

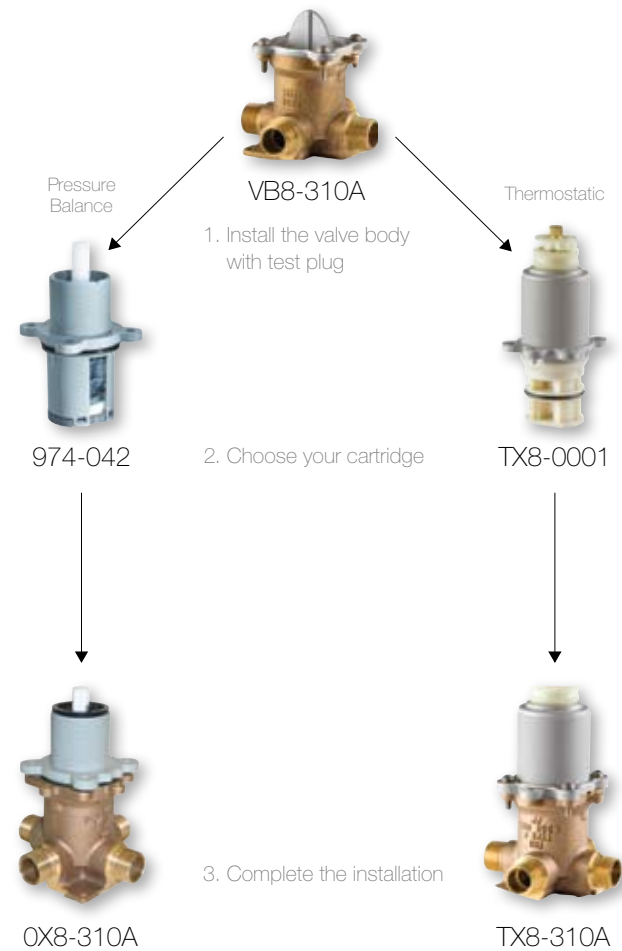

REMODEL

If you have any standard Price Pfister shower, you can simply upgrade to a Thermostatic Shower without going behind the wall. Remodeling with functionality has never been easier.

NEW CONSTRUCTION

New configuration (VB8-310A) allows the customer to rough-in 1 valve body and select the standard pressure balance cartridge or upgrade to the new TX8 Thermostatic cartridge.

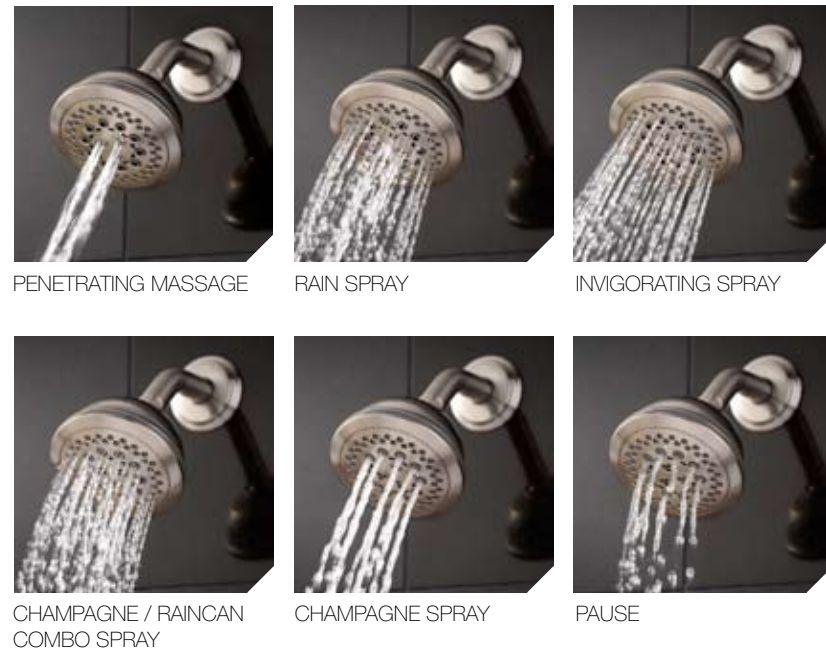

SHOWERHEADS

Redefine your shower with the superior performance and quality of Price Pfister Showerheads. Experience the soothing sensation of a saturating raincan. Bring the essence of the spa home with the luxurious multi-function showerheads. Enjoy the gentle champagne spray, rejuvenate with a full invigorating spray, relax with a penetrating massage or take control of water flow with a new pause function.

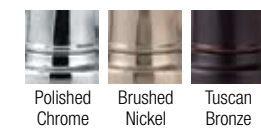

MULTIFUNCTION SHOWER SPRAY PATTERNS

HANDHELD SHOWERS

Choose from any array of innovative options including adjustable slide bars, wallmount options and shower-arm mount configurations. These handhelds elegantly combine design, convenience & versatility to provide the perfect complement to any shower.
